Book Description

Publication Date: **October 20, 2013**

New York City, May 2000. The Internet bubble has burst, and Evan's boss fires him with an email. The next day, his girlfriend dumps him, also via email. Afraid to check any more emails, Evan desperately seeks a rebound romance but the catastrophes that ensue go from bad to hilariously worse. Fortunately, Evan meets someone whose legendary disasters with females eclipse even his own.

To reverse their fortunes, they recruit their friends into a group of five guys who take on Manhattan in pursuit of dates, sex, and adventure. With musings about life, relationships, and human psychology, this quintessential New York story about the search for happiness follows five men on their comical paths to trouble, self-discovery, and love.

Hilarity in the City October 25, 2013

By [lovinglife](#)

Format: Kindle Edition | [Amazon Verified Purchase](#)

Was looking for a light romantic comedy and saw this book in the new releases. Definitely gives you the male perspective, but not in a way that's disrespectful to women. And it will have you laughing. I snuck in some reading at work and at one point burst into hysterical laughter and my officemate gave me this look like i'd lost my mind. I had just read the scene where Heeb tries modeling for a painting class. It's one of the funniest things I've read in a really long time. Anyway, I HIGHLY recommend this book -- to men and women, single and married. It's just a really entertaining read.

A wickedly brilliant story! December 3, 2013

By [JavaBee](#)

Format: Kindle Edition | [Amazon Verified Purchase](#)

"Every human relationship begins with a coincidence."

"By contrast, friends and lovers choose each other, but even these choices are reactions to what ever random coincidence made the resulting relationship possible."

-Zack Love

I kind of want to extend my middle finger at Mr. Love after reading this, all the while donning a devious smirk. As a fellow writer I find myself subconsciously critical of others work. What this book did for me was the reason I started telling stories in the first place and reminded me of the grand influence and power of the written word.

Picking this up reminded me of sitting on a plane and discovering you quite possibly met the most intriguing person you will ever encounter, and for those brief hours suspended in time, all of the universe is up for discussion without the usual formalities of social standing.

The characters, even in their most shallow moments, are full of soul with the inner distress one feels when they are falling short of living life to the fullest potential and finding that "perfect" mate. Together they commiserate on the unfortunate encounters they experience while scheming ridiculous plans to improve it. Woven together with sharp humor and identifiable characters, Sex in the Title is a virtual tour through Urie Brofenbrenners "Ecological Systems Theory". It cannot be easily summed up, as it spans several genres and does it with such cleverness, you cannot help but be impressed. What it boils down to is an incredible read. Everyone gets something different out of each story, for me, I felt so many emotions I find it difficult to convey and this review most likely comes across as superfluous ramblings.

I can honestly say that this has been one of my all-time favorite reads. [Read more >](#)

These poor fellas

This isn't your usual smutty read, but it will give you insite into the minds of men with the added comedic flare. Following the lives of the guys was very intriguing. [Read more](#)
